HAWORTH INTRODUCES
HEIGHT ADJUSTABLE TABLES

The best workspaces are carefully designed to actively enhance health and productivity and to promote high performance. In workspace, sit to stand technology is becoming an important part of wellness practice and is manifesting in workspaces globally.

Height adjustable tables were recently added to Haworth's Infinity system and to celebrate, an international team toured Australia to engage with clients and designers around wellness in practice throughout Asia Pacific, and to discuss how wellness is inspiring new design and innovation. See more at ap.haworth.com/home/tables/height-adjustable.

Orangebox Aira Pods

Aira pods offer privacy where you need it, with the flexibility to change. Inside, you can Focus... Brainstorm... Meet... or Present, thanks to the 28db reduction in distracting outside noise.

Gensler's Focus In The Workplace report states that 55% of work is spent on focus work, of which 88% is considered critical. Unlike traditional fixed rooms, the pods are designed to be moved, and doing so just once saves our clients an average of 90% of the pod's cost. Aira pods offer an attractive and effective solution for offices seeking more focus, concentration, and meeting areas.

The Porter | HAWORTH xFriends

Since opening in May 2014, the Porter has quickly become one of Sydney's most sought-after event venues. The Atelier space in particular has been very popular as an activated workshop and meeting space; clients utilize its writable surfaces, flexible furniture configurations and acoustical privacy to enjoy highly productive off-site events. See more at haworthclublounge.com

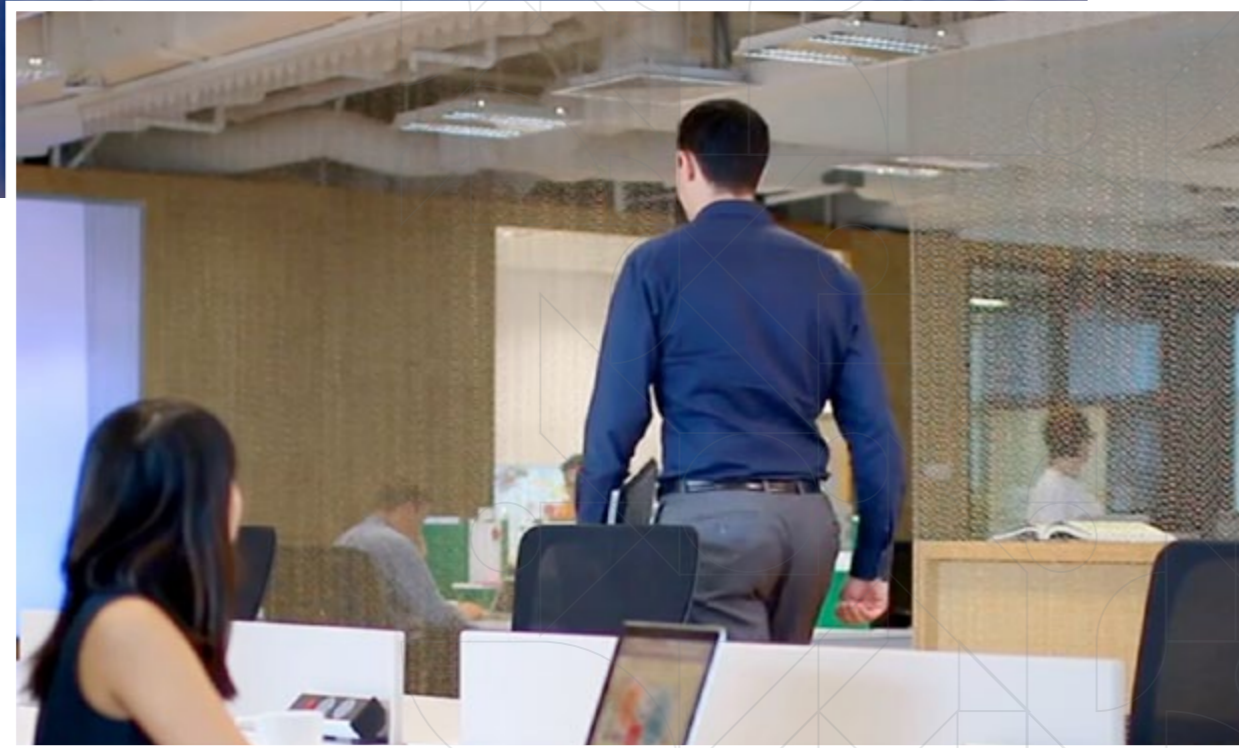

INFINITY HEIGHT ADJUSTABLE

Something was bothering Raul, but Infinity's flexible solution came in to save the day!

HP - INDIA GOLD CERTIFICATE USGBC LEED

One of our latest HP projects in Chennai, India with over 182, 000 sq.ft of space received its Gold Certification under USGBC's LEED ID+C rating system with the help of Green consultant En3 Sustainability Solutions.

This certification is achieved with the contributions of our soft seating & loose furniture as well as cafeteria seating.

Some key features for earning the certification includes

- Private Bus Lines
- High Solar Reflectance Roof
- 75% Underground parking
- Re-use of waste water
- Bicycle and Shower facilities
- Carpool
- Reduced potable water consumption on landscape and building fixtures
